NO, YOU ARE NOT EXPERIENCING DÉJÀ VU.

The boat pictured below was also listed in the Fall '05 issue of Bone Yard Boats. I spoke with the owner just before going to press to see if she were still available. She is! Dozens of interested people have contacted both me and the owner, but only a few have gone so far as to check her out. Let's find a new home for this classic! Spring is just around the corner. She's in NY and will require transportation, but she's **FREE!**

**CHRIS CRAFT, Sea Skiff, 1957, 36ft.** Wooden hull is in good shape. There are no cracked ribs. The engines were 413 Chryslers -- not working. Engines were flooded, but boat did not sink. She has new shafts, wheels, stuffing boxes, and fiberglass mufflers. Forward port rubrail is storm damaged, flying bridge plywood delaminating. Two 75 gal monel fuel tanks plus generator tank. In the water in August. Owner has paid for a land winter storage spot and is trying to find her a good home. Very few of these hulls left.

**Great boat for FREE.** 718-447-3410 (NY) [G-DRY]
