**WHIRLWIND, Runabout, 1959, 14'.** Plywood and fiberglass hull with a 1962 4-cylinder 50hp Mercury outboard. Owner says, "This old girl is in great shape but will need some "TLC" to make her perfect. A coat of varnish and a tune up and she is all it would take! Since the boat has sat for so long I would imagine that the water pump impeller needs replaced also (\$15 item). This boat has been in our family since new. I got it in the late 80's and haven't used it since the mid 90's. It has been garage kept all of its life. I hate to get rid of it, but I need the garage space and would like to see someone that really loves and appreciates wood boats to get her." Asking Price: \$3800 OBO.
