

1957 CENTURY RUNABOUT 19'. Owner says: "This is a project boat -- not a disaster and is well worth restoring. Complete with running 327 cu in American Motors engine. Also have a complete spare engine with BW reverse gear. Boat requires a few planks replaced, as well as a new deck. I have started on the project, but as usual, I don't have the time required to stay on the project long enough to finish it. Basically, the boat is in good shape, most all of the chrome has been rechromed, and is complete. Asking: \$5250. includes: Boat, two engines with reverse gears (one not running), all the chrome pieces including cutwater, aluminum fuel tank (fairly new), gauges, steering, seats and upholstered side panels, one very good tandem axle trailer. Poulsbo, WA. Contact Craig at (360) 710-8072 or saltcreeke@gmail.com

1957 CENTURY RUNABOUT 19'

1965 SHEPHERD 26'

1965 SHEPHERD 26'. Not much information on this beautiful old woody. Asking: \$999. Contact Michelle at 705-868-1110 or concretia@gmail.com. Located Ontario, Canada.

To: davidirving@boneyardboats.com

Hi David, I came across boneyardboats.com while hunting for my first boat, which I plan to buy for 2007 or 2008. I think what you've done is absolutely fantastic and I'm glad to see that someone's looking out for these old boats. They provide something beautiful and unique amongst today's lunch-box plastic boats that all look the same. -- Cheers, Jordan H.

1947 MATTHEWS STOCK CRUISER 38'

1947 MATTHEWS 38'. Owner says: "The boat is a 1947 38' stock cruiser in need of some plank and frame repair. Having some experience with Matthews boats I would consider this boat to be restorable. Its' hull below the waterline is in good condition. This boat has twin 427 Ford engines that ran great. It also has updated controls that made it a very easy boat to drive. The berths are in great shape but I will not be restoring her. The boat is on a transport trailer that will be included in the sale. The selling price is \$6000.00 for all. If there is no interest, the engines will be pulled and for sale and the rest destroyed. Please contact me (Rick) at 814-922-7939 or by email at camp@virginiasbeach.com. Location believed to be PA or OH.

Subject: boat in need of saving (...DESERT BOAT?)

Hi. I know where there is a boat that is in dire need of saving... As of now the boat looks like a rust bucket....But the boat is about 75 or 80 miles inland...Off hwy 58 Between Bakersfield California and Mojave California. I am sad to see an old boat like this just rotting away in the California desert. This boat can be seen sitting just off the hwy...Its on the west bound side of the hwy.... If traveling from Mojave California to Bakersfield it will be to the right of your vehicle in a field just off the hwy...
