

1956 CHRIS CRAFT CONSTELLATION 38'

1956 CHRIS CRAFT CONSTELLATION 38'. Owner says, "This Chris Craft Connie is a project boat. Serial Number X6S-38-154. It has (2) 327 Chevrolet 8 Cyl. 210 HP. The hull is in fair condition. It was replanked 12 years ago. The interior is gutted. The cabin top was fiberglassed. The front deck needs replacing. It was in the water 2 years ago. It will float and the engines run fine. There are additional rechromed parts available for \$2500 extra." Asking: \$2500. **(MI)** Contact Doug at 586-779-1355 or viking87@webtv.net

1958 CHRIS CRAFT LUXURY CRUISER 26'

1958 CHRIS CRAFT LUXURY CRUISER 26'. Owner says, "I'm glad to hear that there still might be a home for the old girl. As for details...the marine museum in Virginia describes it as a late fifties Chris Craft luxury cruiser. 26' with an inboard Chevy 283. Marine plywood construction. It's very rough. The hull has split along one of the mid ship seams. It's probably been a refuge to some of the wildlife around here. The boat is intact, that is all the pieces are still there. The cabin is in good condition. It hasn't been in the water since 1990. I did have the engine running a few years back. It was freshly rebuilt at the time I purchased it. Whole or in pieces. This boat has been stored outdoors for over 10 years and is in really rough shape. However there are many good parts available. It does have to leave here in one piece." Interested? Contact Kevin at k.clemence@sympatico.ca (CANADA, Toronto area)

1956 RICHARDSON SEDAN CLASSIC CRUISER 38'. Current restoration project - engines & exterior still need some work. 12-foot beam. Twin 305 Chevy gas engines, 255hp, 1979. It would please me greatly to see this boat go to a good home. I have spent the last 3 years living & working on this boat and know a great deal about its present condition." Asking \$6900 OBO. Contact Court at court.percival@gmail.com. Seattle, **WA**

1956 RICHARDSON SEDAN CLASSIC CRUISER 38'

1960 THOMPSON SEA COASTER 16'. Mahogany plywood deck. Hull is lapstrake over oak ribs. 6' beam. Her name is SWEET 16. Powered by 1959 Mercury MK58AEL Super Thunderbolt Single V-Drive 45 hp.

Owner says, "It is a 1960 Thompson Sea Coaster Special 475; with a 1959 Mercury MK58AEL and a 1959 SnowCo trailer. It was a two-year project. I completely stripped the hull and brightwork. The hull got two coats of Smith's CPES, a barrier coat, two primer coats, and two top coats. The bottom has the old standard copper bronze on it. The bright work, after sanding, and staining, got two coats of CPES, then five coats of Pettit Captains varnish, and two coats of Epifanes clear varnish on the decks. I installed a Teleflex steering system, re-wired the boat, installed a tachometer, speedometer, temp gauge, moved the key switch to the dash panel, installed the air horns. The MK58AEL was stripped, primed, & painted authentic Mercury colors. It has new timing belt, plugs, wires, points, condenser, carb kits, fuel pump kit, and water pump. The trailer was stripped, sanded, primed, & spray painted. It has new wheels, tires, brgs, rollers, bunks, winch, jack, & lights. I am the second owner of this classic boat."

"I found it tucked away in a barn in Tennessee where she had been for some thirty years. It had a 1966 Mercury 650 on it, but it is seized up and awaiting inspection to see if it can be rebuilt."
