WORKING ON RAYBOW

I've been looking for my copies each month and now realized that my subscription lapsed...thanks for the card. My check is on the way. **I've been busy working on Raybow ... thanks to BYB.** It's been a year and I've been busy stripping and recaulking the hull. I've also replaced the canvas roof atop the pilot house. I'm also about to re-canvas the cabin house roof top. Removing rotten wood has taken a lot of time. But I'm getting it done.

Thanks again for the newsletter. Looking for my next project already.
