

1957 RICHARDSON AFT CABIN 43'.

1957 RICHARDSON AFT CABIN 43'. Owner says, "1957 43' Richardson Flush Deck Motor Yacht is reluctantly up for sale. I have owned and enjoyed my Richardson for the past 16 years. She is currently in the water and being used. I have reached a point where I can not devote the time to take care of her. The hull is cedar planks over oak ribs and is in fair to good condition. The engines are 471 Detroit Diesels and run well but have over 3500hrs and probably will need rebuilding in the future. There is also a 4.5 Onan Generator. The decks are all teak and in good condition. The interior has an aft cabin with double and single berths, a mid-cabin with twin bunks, one head with shower, a main saloon and a galley in the bow area." Asking \$10,000 and "willing to listen to reasonable offers." The boat is located on the Seneca-Cayuga Canal just off Seneca Lake (NY). 1955 DUNPHY 14'

1955 DUNPHY 14'. Owner says, "The boat has been in the family since it was new. I learned to water ski behind her. It has been in and out of storage for many years until I moved back to Michigan and decided to restore. The Dunphy is a 14' plywood mahogany runabout. I have a 1960 Merc 35 HP with electric start. Motor runs, has good compression, new plugs, wires and points. Have a 1960's vintage Merc red metal gas tank in very good condition. Also have a vintage Merc single level controls. Still need to get that back together and hooked up with the new cables. Also included is Plexiglas windshield; have original brackets but missing the gasketing. All other hardware is original. I completely sanded the exterior and put 4 coats of Captains varnish on the exterior and 2 coats inside. Bottom has 4 coats of original Sea Foam Green color paint from Kirby's. No dry rot but the transom leaks a little. I have it on a Holsclaw trailer that is in descent shape. Boat and the trailer are registered in MI." Asking \$3,500 including trailer; will accept reasonable offers. Contact Pat at 248-926-9286 or accutron_guy@sbcglobal.net
