1956 CHRIS CRAFT SEA SKIFF 21'. Owner says, "I have just acquired a 1956 Chris Craft "Sea Skiff". It is a project boat that needs literally every thing, but I believe there are many salvageable parts. I am not able to store this boat where I thought I had arranged and need to move fast. Can you help me find a buyer? It's 21' and has the K model engine, turns over but doesn't start according to the fellow I got it from. I haven't looked at it yet but being a mechanic for 33 years if I can't get it running in less than a half hour (barring deep engine troubles) I'll just throw my tools in the street. It has a heavy duty 2 axle trailer with electric brakes on the forward axle. I'll be happy to work with anyone who will contact me." Located in Longmont, **CO**, 30 miles north of Denver.
