

1946 CONSOLIDATED PLAYBOAT 39' (Cont from Page 1.)

...replaced, and she NEEDS all ribs, floor timbers, and transom framing replaced, as well as new decks and gobs of cosmetics.

"All framing is white oak. This boat has never been actually refastened, which has left the planking largely unmolested. Much of the interior has been removed, but I have pictures documenting what she looked like, and all original parts have been saved, even if less than perfect. The wheelhouse roof is 1 year old stainless fastened plywood, covered with painted canvas (as original). Additionally, she has nearly all original hardware that she came with. The boat is located in PA, near Philadelphia. Will need to be moved by land. There is virtually no chance of transporting her by water. She's been on the hard and dried up.

"With approval, you *may* be able to join the yacht club ! ! where she is located. Right individual has the resources or skills to restore her properly. No fiberglass and 5200 mechanics! I will not sell her for her engines. I am open to reasonable offers with consideration of the good machinery (new copper exhaust elbows, winterized and fogged in '06, will start them for the right individual), and the costs incurred for the documentation." Call Chris after 5pm Eastern time 215-421-9280 or email TeamPontiac79@aol.com (PA)

1980 JOHN D. LITTLE CATBOAT 16'

1980 JOHN D. LITTLE CATBOAT 16'. Owner says, "Built by John D. Little at Mill Creek Boat Shop in Maine. Lapstrake construction in good condition. Small cuddy cabin with bunks and cushions. Centerboard. Gaff rigged with a very recent sail, spars are in good shape. Cradle, spars, sail, oar, swim ladder and cushions included (there is no trailer). This would be a great boat for gunkholing in shoaly waters. It is small and manageable, but can accommodate for an overnight excursion. The hull is in good shape, but the brightwork will want some cosmetic attention. It is currently in indoor storage in Cataumet, and may be seen most anytime during the week by appointment." Asking \$9000. Contact Amy at 508-563-2800 or Amy_bbs@cape.com (MA)

1968 OWENS 28'

1968 OWENS 28'. Owner says, "I have a 1968 Owens 28 foot wooden boat with cabin in my backyard. It is free for anyone to take for parts or rehab project. I think that it may have a diesel engine and that the wood is mahogany. The hull is wood, not fiberglass. I have a lot of great memories from my childhood on that boat. It was my fathers'. He became ill quite a few years ago and was unable to keep up maintenance and then restoration. I would love it if someone would take it to restore, but I am realistic because I need to have it removed from my property. The boat is located in New Jersey, about 15 minutes outside of Philadelphia. There is backyard access to have it taken out either by crane or tow. There is also a waterway a few blocks from my house that accesses the Delaware River. I believe that is how my father brought it in years ago. The name of my father's boat is 'The Joy.'" Contact Angel at Aruple25@aol.com (NJ)

CHRIS CRAFT MODEL 'K' ENGINE

CHRIS CRAFT MODEL 'K' ENGINE. Owner says, "It is left hand rotaion, complete and it turns by hand. With a little wim sure it could be easily started. I am asking \$500. The engine is located in Cranford, New Jersey." Contact James at james.sowa@hotmail.com or 908-272-1173 (NJ)

1959 BORUM SAFARI 16'. Owner says, "The Borum Safari is in need of a rebuild. The bottom needs to be replaced and there is a small soft spot on the upper edge of the transom. The decks need refinishing, and there is also a small, golf ball sized, soft spot on one side. The trailer is the original Gator and has new tires and rims as well as the originals. The engine is a 1961 (I think) 75HP Johnson which ran 3 years ago and turns over. All hardware except the windshiled is included. I picked the boat up last winter to keep it from being junked. (it was in an estate and no one wanted it) My dad had the very same model Borum (with a 100HP Merc) when I was in high school, so I had to save this boat. (cont.)
