

1996 NOYO TRAWLER 24'

"...but I have lost my heated indoor storage area. A 48hp (new) Pathfinder diesel motor, shaft, prop, and rudder are already installed. A small cuddy cabin forward is roughed in with a doghouse above and the basic framework for the cabin walls and cabin top are included (not shown in the pics but shown in the drawing). This boat is a basic (but modified) Glen L design. The modifications made by the builder are to the pilot house and main cabin area which is lengthened beyond original plans. The hull is mahogany and resin coated – beautiful work. The hull is currently out of the weather and under cover in a temporary shelter but this boat needs to be completed by a skilled boat builder and "put to sea." No trailer included but was moved to my property on a large 24' trailer. Purchaser is responsible for picking up and moving the boat. A 32' x 15' x 12' shelter is also available if you want. Asking \$6500 for the boat and \$500 for the shelter (if you want that also). Located in Muskegon, Michigan." Contact Roy at 231-780-2972 or res6nbwc@verizon.net (MI)

**1958 CHRIS CRAFT PARTS.** Owner says, "We have just about everything that could be taken from the boat. We will be happy to negotiate a fair price for each item that anyone may need. Here are some of the items: 2 - 440 Chrysler motors complete with transmissions, 2 rudder shafts with rudders, 1 prop, throttle controls, complete dash with the steering wheel, 1 set of trim tabs, 2 hatches, all stainless steel, 1" rubrail, fuel fill deck pipes, bits, cleats, pumps, LectraSan, all woodwork from cabin including all doors, all stainless deck railings. We can be reached at Mago Point Marina, Waterford, CT. 860-442-2710 or 860-287-0579."

1966 CHRIS CRAFT CONQUEROR 41'

**1966 CHRIS CRAFT CONQUEROR 41'.** 2 Gas 454s run good. VHF radio, FF, DF, Hailer w/ External speakers, Radar, Windlass. All Work Great. Many more new parts. Asking \$4999. Call 973-759-2862 or email blwn350@yahoo.com (NJ)

**1936 POOLE 24'.** Owner says, "The engine is a Chevy 153 "Iron Duke" 120 HP driving a velvet drive transmission. The boat is solid Teak with very little rot above water line, all repaired or replaced. Hull has been re-screwed and sealed, although this is still a challenge getting everything to seal as it's on a trailer... Poole was a manufacturer of approximately 55 boats in the 1930s' probably no two alike. One story I had seen, said Poole built his boats in the North West. I don't believe there is any connection with Poole in England. This model 24 foot solid teak boat was built in 1936. All the fittings are either brass or bronze. I purchased the boat in 1992 from a boat club member who had seen her in Mission Bay a year earlier. In 1993 some basic repairs were started, but the purchase of a running Chris Craft halted any significant work. Serious work on the boat did not start until around early 2000. The boat immediately was nicknamed "Popeye". The previous name was "Lovely Lady" in Spanish." Asking \$7500. Call Tony at 858-967-4706 or tony@adcalls4u.com. San Diego (CA)

1936 POOLE 24' SOLID TEAK

**1955 CHRIS CRAFT RUNABOUT KITBOAT 16'.** Owner says, "The boat is a chris-craft custom runabout kit boat 15' 6" long, 6'6" beam, 580lbs. 1725 kits were produced. It was built in the fall 1954 in Wallaceburg, Ontario, not far from Alconac, MI. It was restored by James Desmarais in 2005; all original except the windshield that I fabricated. The boat is powered by a restored 1956 30 hp Johnson Javelin outboard; a restored trailer is also included." Asking \$7500. Call James at 586-980-3481 or email: james\_d87@sbcglobal.net (MI)

1955 CHRIS CRAFT RUNABOUT KITBOAT 16'

**1957 CHRIS CRAFT SPORTSMAN 17'.** Owner says, " My boat is in great shape and is used a lot. ...I just wish I had the time and place to store this one, then I would not even consider selling. Maybe down the road, I will have the right spot then I can buy another one. ... very nice boat, ... and runs very well, able to use no-lead gas. Trailer included along with ladder, ski vests,..."
