**1966 PEMBROKE EXPRESS 32'.** Owner says, "I bought this boat a few years ago with hopes of restoring it, but things have changed for me. Pembroke only made 1500 boats in its 20 year run and they were all handmade of 3/4" mahogany lapstrake. These were some of the best boats ever built. Before I bought it, it was stored indoors for 25 years! That means it was only in the water for about 14 years before being stored inside. Very solid and well worth restoring. I have a late 60's Trojan 36'

1966 PEMBROKE EXPRESS CRUISER 32'

that goes with it for parts. Trojan has two great engines with low hours; just in the water last year and running. All the hardware you need to finish the Pembroke is on the Trojan. I will strip the old Trojan if you wish not to haul it to where ever you go. The Trojan also has an Onan generator, central Air, hot water heater, windlass, nice swim platform, lots of hardware. Teak rails and steps. If you are looking for a good solid boat project please buy this boat. I am moving and need to sell it asap. Any reasonable offer will be considered."
