

...found the body floating and figured the torque from the motor must of kicked it loose from the bottom. A bit sobering since my young cousins were with him.

1956 TOLLYCRAFT RUNABOUT 14'

"The boat spent a week every summer on Mercer Lake near Florence, Oregon at the coast. It was one of two wood boats on the lake, and very identifiable by the big yellow plastic sunflower spinning in the wind. We caught hundreds of perch and trout in the boat, and it once crossed the bar at Newport, Oregon for about five minutes just so he could say he'd been to sea in "Boat". The boat had an Evinrude Larkspur 35 horse ob when he bought it, but he thought it would make a good ski boat for me, so he put a new Johnson 55 horse on it. I only weighed 130 pounds at the time and nearly pulled the transom out on some of my slalom skiing runs. The motor produced such a large following wave that he put some extra marine plywood on the stern to keep from being swamped. The boat hasn't been in the water in at least five years, due to his declining health. In a perfect world, I would see someone put it in a shop, take the Johnson off and sell it; put a 35 horse back on it; and use it for what it was intended to be; a great runabout." \$6000 (neg). Call Steve 503-930-1871 or steakndani@yahoo.com. Corvallis, **OR**.

1959/60 PENN YAN 16' BALTIC CBF HI LINE

1959/60 PENN YAN 16' BALTIC CBF HI LINE. Bent oak frames, lapstrake. Owner says, "Fully Restored in 2004 by Steve Davies Jr. with help from Captain Jim Shotwell of Nescopeck PA, a professional wooden boat builder. Used briefly and then stored. I bought the boat in 2007 and kept it at Chipman Point Marina on Lake Champlain. Fun little boat and easy to use for first time boaters. Elgin outboard 40 hp, runs well but since Elgin motors are not longer made replacement parts are hard to find. Boat only needs repainting of the hull but is otherwise in perfect shape and ready to go. All equipment comes with the boat. Trailer is old and could use paint but the wiring, lights, tires, and wheels are all new and the bearings were repacked when I bought it. I would love to sell it so that it is used and so I can start to restore the barn where I am storing it. It is ready to go with all accessories. It could use a coat of paint and I had it winterized two years ago so it is not ready to put in the water without some minor work." Asking \$3800. Contact Jan at beckerjan@comcast.net or 802-382-9343. East Middlebury, **VT**

1956 CHRIS CRAFT LAKE SKIFF CRUISER 27'

1956 CHRIS CRAFT LAKE SKIFF CRUISER 27'. Twin original gas engines, 105hp each. Mahogany hull. Owner says, "Good condition. Needs repair work on mahogany planks inboard, chine log rotted on port & starboard, buttblock on starboard needs to be sealed. Original owner, great family cruiser on Lake Winnepesaukee, NH. Stored undercover at marina each year." Asking: \$9995. Contact Bruce at bwhpah@comcast.net or 508-259-0738 **(NH)**

1970 TROJAN F-31'

1970 TROJAN F-31'. Owner says, "I have a 1970 Trojan F-31 twin 318 Chrysler; boat is solid and needs a home. The engines were winterized and boat has been out of the water for some time. About 4 years ago the gold leafing was added to the transom and the previous owner ask if I would go through the engines and freshen them up. He said that they ran good , oil leak and or a little smoke at start up. This is not a real big project though it does need some work like sand and paint, head liner. The Trojan I will sell cheap and as is. Asking \$2000 OBO. Contact Brian at westmichiganmobile@msn.com. **(MI)**

1967 OWENS PRINCESS 25' (details on Page 6.)
