"THAT'S NOT BOAT-BUILDING. THAT'S CABINET-MAKING."

FREE 1951-1958 HOME-BUILT RABL 24' CABIN CRUISER -- PEGASUS

FREE 1951 HOME-BUILT RABL 24' CABIN CRUISER. Owner says, "David, I need a home for my father's hand-built 24-foot inboard cabin cruiser. It was built in Lynnfield Center, Massachusetts, in the 1950s, put in the water in Essex, and was sailed to the Philadelphia area, including across Sandy Hook in an unexpected gale, and eventually to Florida when he retired. After my father died, my husband and I enjoyed trips on it on the St. Johns River, and now we need to find it a new home. It has been standing in our yard for several years, not getting any better. Can you help us? It was a beautiful boat." (continued on page 4.)

1957 MATTHEWS STOCK CRUISER 42'. "Sadly, our Captain passed on to bluer waters in October '10, and we hope to find a new owner and new "life" for our Matthews beginning in summer '11." (cont on pg 5.)

L. FRANCIS HERRESHOFF H-28

HERRSHOFF H-28 -- PROJECT BOAT NEEDS COMPLETION

L. FRANCIS HERRESHOFF H-28: L. Francis Herreshoff's design for the H-28 first appeared in a series of ten articles, complete with detailed drawings, that were published in the "How to Build" section of *The Rudder Magazine* between January 1943 and January 1944. This ketch design proved to be extraordinarily popular and many of these boats were built by professionals and amateur boatbuilders alike. Her original design had a beam of 8'9", draft 3'6", 23'3" at the waterline, and displaced just over 9,000 pounds. The owner of the H-28 pictured above says, "Hull, deck and cabin top completed. Atomic 4 motor, prop and shaft installed. Interior needs finishing." (continued on page 8.)

1922 GEORGIAN BAY ANTIQUE LAUNCH 17'. Unknown builder. Owner says, "This charming, 1922 launch is powered by a Buchanan Junior 25 hp engine. LULU underwent a complete restoration last year, (2010). Hardware was re-plated and the Buchanan engine was rebuilt. LULU features a cypress wood hull and new sapele wood decks, covering boards and engine box. A custom trailer is... (continued on page 6.)
